

SCHOOL OF HUMANITIES STUDIES (SOHS)

ABOUT SOHS

The School of Humanities Studies prides itself on being contemporary and futuristic in its approach to evolution of humanities studies. The ongoing digital disruption has far too many consequences on societies, businesses, citizenry, international relations, arts, history, taxation, money, etc. The cultural conundrum that emanates from this flux is extremely exciting, but needs trained minds and intellects to solve the societal problems. We at SOHS shape our students to wade through the flux and be the thought leaders of tomorrow.

SOHS ADVANTAGE

01

Curriculum embraces rigorous academic studies and critical analysis, research and expression

02

Engaging discussions, scholarly exploration and creative projects that help understand nuance of human values and ideas

03

Incubation centre to bring alive startup dreams of students where they get to seek expert advice, Venture capital/Angel investments while distilling their ideas into products and services

CENTRE OF EXCELLENCE FOR PUBLIC POLICY

This Virtual Centre aims to be a change agent for the society by inculcating a favourable ecosystem for knowledge creation, analysis, debates, research and finally, inputs for public policies.

The Centre brings together multiple generations of society, adopts an open door policy and conducts seminars, conferences, conclaves, round tables which lead to high quality and critical knowledge acquisition.

Our trans disciplinary approach across all our schools add to the richness of discussions
